WASTE RESPONSE &  
COMPLIANCE BRANCH

Mr. Marvin Feldman  
 K. J. Quinn & Company, Inc.  
 Folly Mills Road  
 Seabrook, New Hampshire 03874

Dear Mr. Feldman:

On May 20, 1983 Mr. David J. Allain of this agency collected samples from K. J. Quinn monitoring wells in Seabrook. These samples were split with Quinn's consultants, Weston, Inc. The samples Mr. Allain collected were analyzed by gas chromatograph/mass spectrometer for volatile organic compounds. The analytical results are enclosed herewith. Results from May 14, 1982 are enclosed for your convenience.

Because some of these results indicate substantial increases in concentration of pollutants compared to reports from sampling on May 14, 1982, we request that you forward to this office copies of results obtained by your consultants from the recent monitoring.

The fact that levels of contamination have increased is of concern, since a water supply well is reported to exist down-gradient from this site. We, therefore, urge expeditious response to this request.

Very truly yours,

Superfund Records Center
